Diwali Celebration – Food festival conducted by Health club on 15/11/2022

Diwali, the Festival of Lights, is a time when every corner of India shimmers with a warm, radiant glow. Diwali was observed by lighting small oil lamps known as 'diyas' in honor of Lakshmi, the goddess of wealth and good fortune. The lamps symbolize the triumph of light over darkness and evil. Homes are adorned with vibrant decorations, streets are illuminated by thousands of lamps, and hearts resonate with joy and anticipation. But in the midst of all the festivities, there's something truly special about Diwali – the importance of sweets, not just as culinary delights but as symbols of love, sharing, and togetherness.

Food festivals throughout the world are often based on traditional farming techniques and the seasons of the year. Food festivals are related to food culture of an area, whether through the preparation of food served or the time period in which the festival is celebrated.

On account of Diwali celebrations Muslim College of Education, Thiruvithancodeorganised a Food Festival on 15/11/2022 at 10.00 A.M to 1.00 P.M. The Food festival was inaugurated by a ribbon cutting ceremony of our respected Principal, Dr. V. S. Pramod. All the student teachers and faculties participated in the festival by preparing healthy, tasty dishes and many more using traditional recipes. Principal and faculties appreciated the student teachers for their active participation.

CONSUMER AWARENESS PROGRAMME – SAVE ENERGY

Consumer Awareness is a demonstration of ensuring that the purchaser or buyer is aware of the data and information about the items, products, administrations, and buyer's rights.

The Consumer Protection Act of 1986 was enacted by the Constitution to protect customers from any promotional misbehaviour. Consumer awareness is crucial today because of the following reasons.

- The consumer is the most important factor in many businesses. No firm can function without consumers, as their satisfaction is the primary purpose of any business activity.
- Nowadays, conducting any business is not just about making money; it is also about transforming society into a better version by putting its welfare first.
- Consumer protection rights promote a strong competitive market that supports financial progress. It protects acceptable or fair commerce or exchange from harmful exchange practices and deceptive entrepreneurs.
- Shoppers are an important component of the market structure. It is critical to protect their privileges and rights in order to have a decent or fair market.

Key benefits of Consumer Awareness

1. **Easier Onboarding of Consumers** – Awareness enables customer success managers to serve every customer at scale by utilising primarily automated technologies. You will be able to onboard many consumers with the least amount of labour and resources this way.
2. **Reduction Of Support Cost** – Another advantage of customer education is that it lowers support expenses. Support teams waste endless hours answering the same questions repeatedly, resulting in decreased work satisfaction and increased support expenditures.
3. **Consumer Loyalty** – The more significant the perceived value of your product, the less likely customers would search for an alternative offering. When customers become loyal to a brand, the cost of goods sold for recurring purchases falls below the cost of obtaining a new client.
4. **Consumer Satisfaction** – Customer education allows your customers to learn enough about your product, raising customer happiness while decreasing complaints and product returns.
5. **Brand Value** – Many businesses avoid consumer awareness because they are afraid that educating their customers will inform them so much that they will shop and choose an alternative. As a result, consumers will have greater loyalty to your brand and will be more ready to reward you with positive feedback and promote you to others.
