## WATER CONSERVATION POLICY

Purpose:

- To ensure the effective usage of water and conservation of water

Policy Details:

The objectives of the policy are:

Adequate Water Supply:

The college used bore well water so adequacy of water is found. Due to this self-sufficiency to meet the water demands is achieved. Adding, supply of water without break is monitored continuously. Rain water harvesting system is established to recharge the ground water level.

Minimizing Water Wastage:

Any issues arising in the supply of water is addressed immediately. Monitoring the plumbing system and ceilings for leaks is done in frequent intervals. In order to reduce the water usage for gardening purpose, drip irrigation is followed. Apart from this root zone treatment for plants is adapted to minimize the loss of water due to evaporation.

F. No. SRC/NCTE/SRCAPP14511/ B.A.B. Ed, B.ScB.Ed/TN/2017-2018/91300

Proper register is maintained to record the resolved and unresolved issues related to water. Beyond all these initiatives, pressure reducing valves, flow restrictors and aerator taps are placed wherever feasible to reduce the water wastage.

## Rain Water Harvesting:

The College had constructed an efficient system for rain water harvesting. For this, the collection of water from the roof area of the college building is done via pipeline and is channelized to the ground level. The water collect from roof is segregated in a tank which is a percolated to the ground water table.

## Awareness on Water Conservation:

The awareness program on water conservation and on coping strategies to manage water scarcity was conducted in the college. In order to create awareness and make students conscious on saving water, sign boards and direction boards are placed in appropriate places like water taps, toilets, etc. Wall posters stating use water thriftily, turn off taps while not in use and check for leaks are placed wherever possible to create responsiveness among the student teachers. The students are advised to use water wisely and responsibly.

## WATER CONSERVATION POLICY

### Purpose:

- To ensure the effective usage of water and conservation of water

### Policy Details:

The objectives of the policy are:

### Adequate Water Supply:

The college used bore well water so adequacy of water is found. Due to this self-sufficiency to meet the water demands is achieved. Adding, supply of water without break is monitored continuously. Rain water harvesting system is established to recharge the ground water level.

### Minimizing Water Wastage:

Any issues arising in the supply of water is addressed immediately. Monitoring the plumbing system and ceilings for leaks is done in frequent intervals. In order to reduce the water usage for gardening purpose, drip irrigation is followed. Apart from this root zone treatment for plants is adopted to minimize the loss of water due to evaporation.

Proper register is maintained to record the resolved and unresolved issues related to water. Beyond all these initiatives, pressure reducing valves, flow restrictors and aerator taps are placed wherever feasible to reduce the water wastage.

## Rain Water Harvesting:

The College had constructed an efficient system for rain water harvesting. For this, the collection of water from the roof area of the college building is done via pipeline and is channelized to the ground level. The water collect from roof is segregated in a tank which is a percolated to the ground water table.

## Awareness on Water Conservation:

The awareness program on water conservation and on coping strategies to manage water scarcity was conducted in the college. In order to create awareness and make students conscious on saving water, sign boards and direction boards are placed in appropriate places like water taps, toilets, etc. Wall posters stating use water thriftily, turn off taps while not in use and check for leaks are placed wherever possible to create responsiveness among the student teachers. The students are advised to use water wisely and responsibly.
